

High-flying ByBox impresses Sunday Times

PARTS distribution company ByBox has been ranked 12th in this year's Sunday Times Microsoft Tech Track 100.

The Coventry company, launched five years ago, had a turnover of £119,000 in 2002 – this year it will be £21 million.

Tech Track 100 ranks Britain's fastest-growing private tech companies based on 2002-2004 sales growth. ByBox says it has become the UK's largest overnight parts distribution company and works with some of industry's best known names.

Chief executive Stuart Miller (pictured above) called the award 'a major achievement.'
