

# ByBox STAFF BECOME WACKY RACERS

ByBox staff hit the road on a bicycle made for two in a 50-mile tandem race from Milton Keynes to Coventry. 2256

On Thursday 6th September the fearless riders raced between the firm's base in Milton Keynes to the main hub in Coventry in the first ever Tour de Box

The teams were headed by ByBox CEO Stuart Miller, CTO Dan Turner and Managing Director Mark Garritt.

ByBox donated £1 per mile for each team and £1 per successfully completed challenge, raising thousands of pounds for the NSPCC's Boole House counselling project in Coventry, which is totally reliant on charitable donations.

The 30 budding Lance Armstrongs were divided into three teams - Red, Blue and Yellow and had to complete over 30 challenges along the way.

These tasks ranged from changing the lock on one of ByBox's trademark delivery boxes to completing a word puzzle using clues along the route.

ByBox CEO Stuart Miller said: "The one thing that was proved is that there is a lot of spirit from people who work at ByBox.

"They are so competitive and driven by a desire to win and that surely came out throughout the ride.

"They worked really hard and we raised thousands of pounds for an extremely important charity and one which does excellent work."
