

In-night parts firm sets up European operation

In-nights parts distribution specialist, *msb* ByBox is developing a mirror image of it's UK operation in Europe. The company reached number 12 in the Sunday Times Microsoft Tech Track 100 last year and hopes to

strengthen its position with the recent opening of a new

hub in Coventry and another near Orly airport in France. In the UK, ByBox claims to operate the largest dedicated through-the-night distribution service makes more than five million deliveries annually into its national network of 14,000 drop boxes at some 750 locations. Call the number below for further details.
