

## Forward Stock Locations (FSLs)

The strategic placement of critical stock reduces response times and increases operational effectiveness to fulfil even the most demanding SLA.

### Key benefits

- Over 30 locations around the UK
- Delivered same day to site, next day to site or next day to box
- Strategic stock holding for urgent part requirements
- Out of hours coverage
- Full track and trace of parts
- Supported by our Thinventory™ software platform so you can see at what stage of the supply chain your part is at

### How it works

The ByBox FSL network is an integrated storage, rapid pick and pack and distribution service with over 30 locations around the UK.

It offers full control and management of all stock returns, replenishments and dispatches. The ByBox service offers same day delivery to end users or your field engineers. With:

- Emergency stock holding to support a 4 hour SLA
- Nearest part search
- Auto replenishment

**We can manage your whole supply chain process from start to finish.**

### Financial considerations

- Are your engineers travelling too far to collect their parts?
- Are your stock holding costs in your warehouses too high?
- Are you missing SLAs because your parts are not located near your engineers?
- Do you want a single billing platform with one supplier?
